** = 97" wide actual panel size to fit maximum opening width 94-3/4"

For larger sizes and special applications, contact the nearest TODCO factory.

For options, consult the Door Options Price List.

LUBRICATION: • Lubricate the counterbalance bearings, spring, roller hinges and lock liberally with TODCO FG Lube. DO NOT USE GREASE. The more often you clean your door, the more often you should lubricate. • Frequency of door maintenance will vary with climate conditions and door cleaning procedures. Doors which are steam cleaned on the interior face will need lubricating more often than those not cleaned by this method. Doors on equipment which will run in areas where road salts are used will require lock lubrication at closer intervals. • Lubrication should increase with cleaning frequency.
