INSULATED / SEAMLESS / LIGHTWEIGHT

MILES THAT MATTER

ARCTICFLEX™

BY **TODCO®**

SINGLE PANEL CONSTRUCTION

Eliminates panel joints, where typically, ambient temp (heat gain), dust, and moisture can enter the cargo bay.

SMOOTH SUBSTRATE

Free of rivets (excluding exterior hardware) for easier application of fleet advertising.

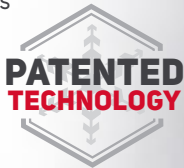

57% LIGHTER WEIGHT

Than competitor's 2 1/8" insulated door.

43% lighter than the competitor's 1 1/2" insulated door

Reduced weight increases door life and reduces fuel and maintenance costs

EXCELLENT THERMAL EFFICIENCY:

20% more thermally efficient than the competitor's 1 1/2" insulated doors, similar in thermal efficiency to the competitor's 2 1/8" insulated door.

LOWER MAINTENANCE COST

SupeRoller™ is included, which last 5-10 times longer than standard rollers. Also includes stainless steel and aluminum hardware for rust prevention.

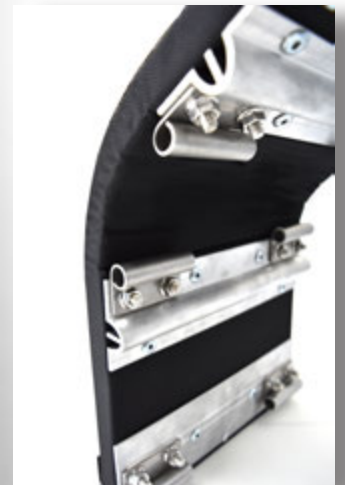

IMPROVED SAFETY

Single panel design eliminates pinch points.

MOLD RESISTANT MATERIALS

EASILY CLEANED & REPAIRED

5 YEAR
LIMITED WARRANTY
