

Keep Rolling with

Stainless Steel SupeRoller

Lasts up to **5x longer**
than other rollers*

- 2" SupeRoller Stainless Steel (Part # 70618)
- Stainless steel shaft for maximum corrosion resistance
- Composite wheel for smooth, quiet operation
- High-quality, internally lubricated bearings for smooth operation, even in cold applications
- Designed and engineered for long life

*In lab testing vs. competitor's standard steel roller.
